March 21st

Senior Class Excursion
Cradle Mountain

March 25th – 29th

Swimming & Water Safety

April 8th

Bike Education

April 11th

Last day of Term 1 for students

April 29th

Term 2 commences

Thank you to all the families that were able to come along to the Pizza Night. It was lovely to start the year off with a relaxing evening and delicious home-made pizza. Thank you Mrs Hutt and the Junior Class for preparing our pizzas and Mrs Miles for cooking them!

Drumming Workshop

Classes are looking forward to their Drumming Workshops this Friday. The workshops are supporting the learning of percussion and rhythm in our music lessons this term.

Clean Up Australia Day

Friday is also Clean Up Australia Day. The Junior Class will be cleaning up around the school, whilst the Senior Class will be cleaning up along the Main Street. We are looking forward to helping keep Wilmot a tidy town.

Rochelle Cunningham – Principal

Wilmot Market

Look at these lovely beanies to keep our heads warm over winter. Thank you to Mrs. Marlene Nicholson (Duncan's Nan) for knitting these for us. We will be selling them at the market this Saturday.

Junior Class Playground

Something exciting is happening in the junior play area! These are the 'before' photos, and I wonder what the 'after' photos will look like? The students will have to wait until Monday to find out!

Grip Leadership

On Wednesday February 20th Taleah and I went to a grade 6 leadership conference in Burnie called GRIP. The GRIP leadership conference was fun and we played different games teaching us how to be better leaders. We filled in a booklet telling us about the types of leaders you can be. I am going to be a reliable and confident leader. We learnt heaps and had a lot of fun.

Senior Class

The Senior Class is learning all about the E in STEAM: Science, Technology, **Engineering**, Arts and Mathematics. We are learning that unlike scientist who pose a question or hypothesis to test, engineers find problems to solve. We practised being engineers with our Egg Challenge. In this challenge students had to devise a solution to the problem 'how can we drop a raw egg off the fort without it breaking?' Thankfully after testing and re-testing our prototypes each team's egg survived! Over the term we are going to engineer some solutions to help make our school farm and garden more efficient.
